Microsoft 365 Mobility and Security

Question Set 1**QUESTION 1**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription.

You discover that some external users accessed content on a Microsoft SharePoint site. You modify the SharePoint sharing policy to prevent sharing outside your organization.

You need to be notified if the SharePoint sharing policy is modified in the future.

Solution: From the SharePoint admin center, you modify the sharing settings.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B

Section: [none]

Explanation

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription.

You discover that some external users accessed content on a Microsoft SharePoint site. You modify the SharePoint sharing policy to prevent sharing outside your organization.

You need to be notified if the SharePoint sharing policy is modified in the future.

Solution: From the Security & Compliance admin center, you create a threat management policy.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

QUESTION 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription.

You discover that some external users accessed content on a Microsoft SharePoint site. You modify the SharePoint sharing policy to prevent sharing outside your organization.

You need to be notified if the SharePoint sharing policy is modified in the future.

Solution: From the SharePoint site, you create an alert.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are deploying Microsoft Intune.

You successfully enroll Windows 10 devices in Intune.

When you try to enroll an iOS device in Intune, you get an error.

You need to ensure that you can enroll the iOS device in Intune.

Solution: You add your user account as a device enrollment manager.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

QUESTION 5

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are deploying Microsoft Intune.

You successfully enroll Windows 10 devices in Intune.

When you try to enroll an iOS device in Intune, you get an error. You

need to ensure that you can enroll the iOS device in Intune.

Solution: You configure the Apple MDM Push certificate.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/intune/apple-mdm-push-certificate-get>

QUESTION 6

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are deploying Microsoft Intune.

You successfully enroll Windows 10 devices in Intune.

When you try to enroll an iOS device in Intune, you get an error. You

need to ensure that you can enroll the iOS device in Intune.

Solution: You create an Apple Configurator enrollment profile.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

QUESTION 7

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an Active Directory domain named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You manage Windows 10 devices by using Microsoft System Center Configuration Manager (Current Branch).

You configure pilot co-management.

You add a new device named Device1 to the domain. You install the Configuration Manager client on Device1.

You need to ensure that you can manage Device1 by using Microsoft Intune and Configuration Manager.

Solution: You create a device configuration profile from the Intune admin center.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

QUESTION 8

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your network contains an Active Directory domain named contoso.com that is synced to Microsoft Azure Active Directory (Azure AD).

You manage Windows 10 devices by using Microsoft System Center Configuration Manager (Current Branch).

You configure pilot co-management.

You add a new device named Device1 to the domain. You install the Configuration Manager client on Device1.

You need to ensure that you can manage Device1 by using Microsoft Intune and Configuration Manager.

Solution: You add Device1 to an Active Directory group.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

QUESTION 10 Your company has a Microsoft 365 subscription.

You implement Microsoft Azure Information Protection.

You need to automatically protect email messages that contain the word Confidential in the subject line.

What should you create?

- A. a mail flow rule from the Exchange admin center
- B. a message trace from the Security & Compliance admin center
- C. a supervision policy from the Security & Compliance admin center
- D. a sharing policy from the Exchange admin center

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/azure/information-protection/configure-exo-rules>

QUESTION 11 You have a Microsoft 365 subscription.

You need to investigate user activity in Microsoft 365, including from where users signed in, which applications were used, and increases in activity during the past month. The solution must minimize administrative effort.

Which admin center should you use?

- A. Azure ATP
- B. Security & Compliance
- C. Cloud App Security
- D. Flow

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/search-the-audit-log-in-security-and-compliance>

QUESTION 12

You are testing a data loss prevention (DLP) policy to protect the sharing of credit card information with external users.

During testing, you discover that a user can share credit card information with external users by using email. However, the user is prevented from sharing files that contain credit card information by using Microsoft SharePoint Online.

You need to prevent the user from sharing the credit card information by using email and SharePoint.

What should you configure?

- A. the locations of the DLP policy
- B. the user overrides of the DLP policy rule
- C. the status of the DLP policy
- D. the conditions of the DLP policy rule

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies>

QUESTION 13 You have a Microsoft 365 subscription.

You need to view the IP address from which a user synced a Microsoft SharePoint library.

What should you do?

- A. From the SharePoint admin center, view the usage reports.
- B. From the Security & Compliance admin center, perform an audit log search.
- C. From the Microsoft 365 admin center, view the usage reports.
- D. From the Microsoft 365 admin center, view the properties of the user's user account.

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/search-the-audit-log-in-security-and-compliance>

QUESTION 14

HOTSPOT

Your network contains an Active Directory domain named contoso.com. The domain contains the file servers shown in the following table.

Name	IP address
Server1	192.168.1.10
Server2	192.168.2.10

A file named File1.abc is stored on Server1. A file named File2.abc is stored on Server2. Three apps named App1, App2, and App3 all open files that have the .abc file extension.

You implement Windows Information Protection (WIP) by using the following configurations:

- Exempt apps: App2
- Protected apps: App1
- Windows Information Protection mode: Block
- Network boundary: IPv4 range of: 192.168.1.1-192.168.1.255

You need to identify the apps from which you can open File1.abc.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

QUESTION 15

In Microsoft 365, you configure a data loss prevention (DLP) policy named Policy1. Policy1 detects the sharing of United States (US) bank account numbers in email messages and attachments.

Policy1 is configured as shown in the exhibit. (Click the **Exhibit** tab.)

Use actions to protect content when the conditions are met.

Restrict access or encrypt the content

- ☒ Block people from sharing and restrict access to shared content
- By default, users are blocked from sending email messages to people. You can choose who has access to shared SharePoint and OneDrive content. Block these people from accessing SharePoint and OneDrive content
- ☐ Everyone. Only the content owner, the last modifier, and the site admin will continue to have access
- ☒ Only people outside your organization. People inside your organization will continue to have access.
- ☐ Encrypt email messages (applies only to content in Exchange)

You need to ensure that internal users can email documents that contain US bank account numbers to external users who have an email suffix of contoso.com.

What should you configure?

- A. an exception
- B. an action
- C. a condition
- D. a group

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

References:

<https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies#how-dlp-policies-work>

QUESTION 16

HOTSPOT

You have a document in Microsoft OneDrive that is encrypted by using Microsoft Azure Information Protection as shown in the following exhibit.

Protection settings ⓘ

Azure (cloud key) HYOK (AD RMS)

Select the protection action type ⓘ

- ☒ Set permissions
☐ Set user-defined permissions (Preview)

USERS	PERMISSIONS
M365x901434.onmicrosoft.com	Co-Owner ...
+ Add permissions	

Content expiration

Always Never By days

Number of days the content is valid

30 ✓

Allow offline access

Balance security requirements (includes access after revocation) with the flexibility to open protected content without an Internet connection. [More information and recommended settings](#)

Always Never By days

Number of days the content is available without an Internet connection

7 ✓

Protection template ID - template id is automatically generated after template is saved

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

QUESTION 17

HOTSPOT

You have a Microsoft Office 365 subscription.

You need to delegate eDiscovery tasks as shown in the following table.

User	Task
User1	<ul style="list-style-type: none"> • Decrypt Microsoft Azure Rights Management (Azure RMS)-protected content. • View the eDiscovery cases created by User1. • Configure case settings. • Place content on hold.
User2	<ul style="list-style-type: none"> • View the eDiscovery cases created by User1. • Export data from Advanced eDiscovery.

The solution must follow the principle of the least privilege.

To which role group should you assign each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/assign-ediscovery-permissions>

QUESTION 18 You plan to use the Security & Compliance admin center to import several PST files into Microsoft 365 mailboxes.

Which three actions should you perform before you import the data? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. From the Exchange admin center, create a public folder.
- B. Copy the PST files by using AzCopy.
- C. From the Exchange admin center, assign admin roles.
- D. From the Microsoft Azure portal, create a storage account that has a blob container.
- E. From the Microsoft 365 admin center, deploy an add-in.
- F. Create a mapping file that uses the CSV file format.

Correct Answer: BCF

Section: [none]

Explanation

Explanation/Reference:

References:

QUESTION 19

HOTSPOT

You have a Microsoft 365 tenant.

You plan to create a retention policy as shown in the following exhibit.

The screenshot shows the 'Review your settings' page for creating a retention policy in Microsoft Azure Information Protection. On the left, a sidebar lists the steps: 'Name your policy', 'Settings', 'Choose locations', and 'Review your settings' (which is currently selected). The main area displays the policy configuration for a policy named 'contoso'. It includes a warning that it will take up to 1 day to apply the policy. The policy is described as applying to content in Exchange email, OneDrive accounts, SharePoint sites, and Office 365 groups. The retention settings specify a period of 7 years, with a note that content older than this will be deleted after the policy is turned on. At the bottom, there are four buttons: 'Back', 'Save for later', 'Create this policy' (highlighted in blue), and 'Cancel'.

Create a policy to retain what you want and get rid of what you don't.

- ✓ Name your policy
- ✓ Settings
- ✓ Choose locations
- Review your settings

Review your settings

⚠ It will take up to 1 day to apply the retention policy to the locations you chose.

Policy name
contoso [Edit](#)

QUESTION 34

HOTSPOT

You have a Microsoft Azure Activity Directory (Azure AD) tenant contains the users shown in the following table.

Name	Member of
User1	Group1
User2	Group2
User3	Group3

Group3 is a member of Group1.

Your company uses Windows Defender Advanced Threat Protection (ATP). Windows Defender ATP contains the roles shown in the following table.

Name	Permission	Assigned user group
Windows Defender ATP administrator (default)	View data, Alerts investigation, Active remediation actions, Manage security settings	<i>None</i>
Role1	View data, Alerts investigation	Group1
Role2	View data	Group2

Windows Defender ATP contains the device groups shown in the following table.

Rank	Machine group	Machine	User access
1	ATP1	Device1	Group1
Last	Ungrouped machines (default)	Device2	<i>None</i>

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

QUESTION 37

You need to notify the manager of the human resources department when a user in the department shares a file or folder from the department's Microsoft SharePoint site.

What should you do?

- A. From the Security & Compliance admin center, create an alert policy.
- B. From the SharePoint site, create an alert.
- C. From the SharePoint admin center, modify the sharing settings.
- D. From the Security & Compliance admin center, create a data loss prevention (DLP) policy.

Correct Answer: A

Section: [none]

Explanation

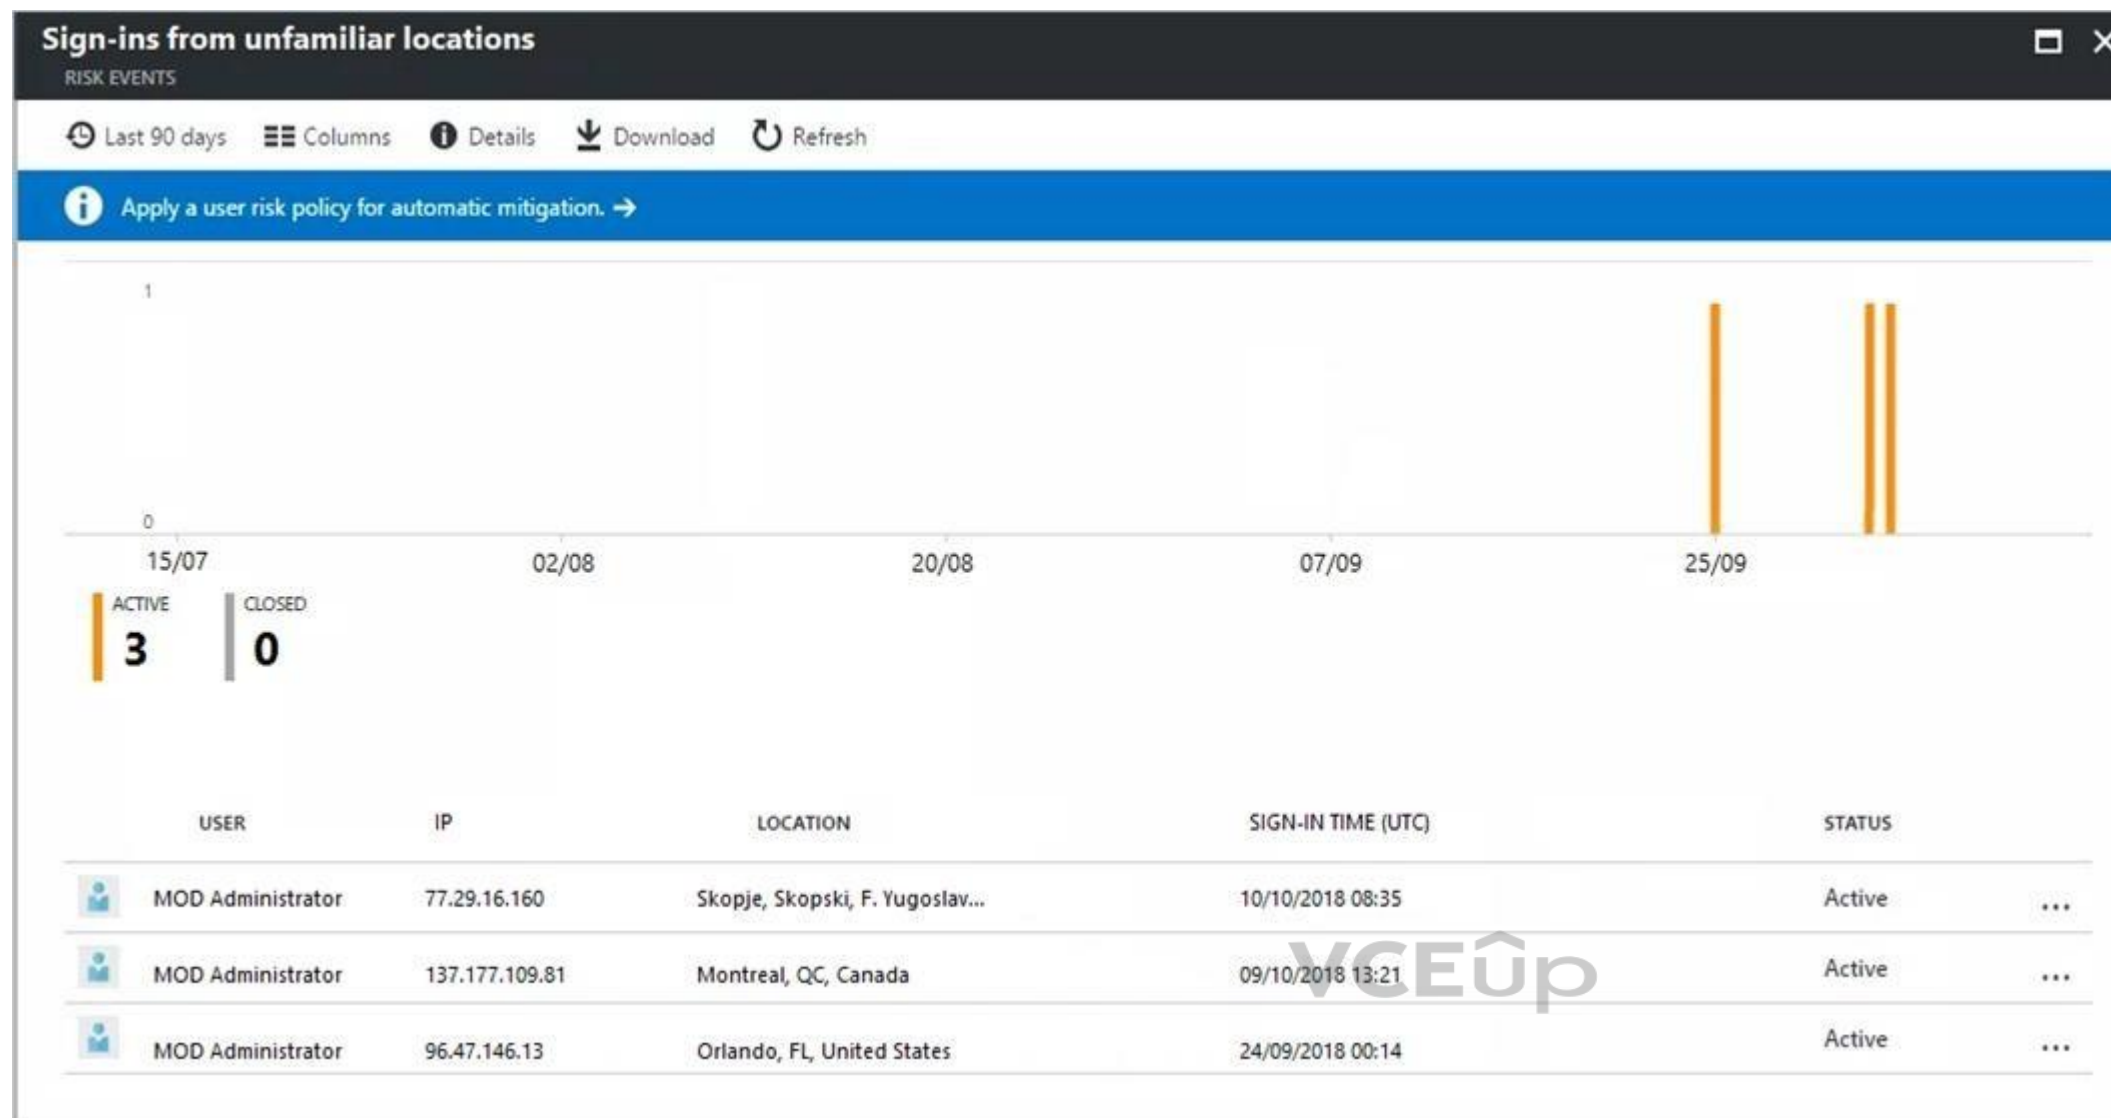

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/create-activity-alerts>

QUESTION 38

HOTSPOT

From the Microsoft Azure Active Directory (Azure AD) Identity Protection dashboard, you view the risk events shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

QUESTION 41
HOTSPOT

You have three devices enrolled in Microsoft Intune as shown in the following table.

Name	Platform	Member of
Device1	Windows 10	Group1
Device2	Android	Group2, Group3
Device3	Windows 10	Group2, Group3

The device compliance policies in Intune are configured as shown in the following table.

Name	Platform	Assigned
Policy1	Windows 10 and later	Yes
Policy2	Android	No
Policy3	Windows 10 and later	Yes

The device compliance policies have the assignments shown in the following table.

Name	Include	Exclude
Policy1	Group3	<i>None</i>
Policy2	Group2	Group3

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/windows/security/identity-protection/hello-for-business/hello-hybrid-aadj-sso-base>

QUESTION 43

You have a Microsoft 365 tenant.

All users are assigned the Enterprise Mobility + Security license.

You need to ensure that when users join their device to Microsoft Azure Active Directory (Azure AD), the device is enrolled in Microsoft Intune automatically.

What should you configure?

- A. Enrollment restrictions from the Intune admin center
- B. device enrollment managers from the Intune admin center
- C. MAM User scope from the Azure Active Directory admin center
- D. MDM User scope from the Azure Active Directory admin center

Correct Answer: D

Section: [none]

QUESTION 44

HOTSPOT

You have several devices enrolled in Microsoft Intune.

You have a Microsoft Azure Active Directory (Azure AD) tenant that includes the users shown in the following table.

Name	Member of
User1	Group1
User2	Group1, Group2
User3	<i>None</i>

The device type restrictions in Intune are configured as shown in the following table.

Priority	Member of	Allowed platform	Assigned to
1	Policy1	Android, iOS, Windows (MDM)	<i>None</i>
2	Policy2	Windows (MDM)	Group2
3	Policy3	Android, iOS	Group1
Default	All users	Android, Windows (MDM)	All users

You add User3 as a device enrollment manager in Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

QUESTION 45

HOTSPOT

You create two device compliance policies for Android devices as shown in the following table.

Name	Member of	Allowed platform	Assigned to
1	Policy1	Android, iOS, Windows (MDM)	<i>None</i>
2	Policy2	Windows (MDM)	Group2
3	Policy3	Android, iOS	Group1
Default	All users	Android, Windows (MDM)	All users

You have the Android devices shown in the following table.

Name	User	Configuration
Android1	User1	Not encrypted
Android2	User2	Google Play services not configured
Android3	User3	Not encrypted Google Play services configured

The users belong to the groups shown in the following table.

User	Group
User1	Group1
User2	Group1, Group2
User3	Group2

The users enroll their device in Microsoft Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

QUESTION 69**HOTSPOT**

You have the Microsoft Azure Active Directory (Azure AD) users shown in the following table.

Name	Member of
User1	Group1
User2	Group2

Your company uses Microsoft Intune.

Several devices are enrolled in Intune as shown in the following table.

Name	Platform	BitLocker Drive Encryption (BitLocker)	Member of
Device1	Windows 10	Disabled	Group3
Device2	Windows 10	Disabled	Group4

The device compliance policies in Intune are configured as shown in the following table.

Name	Require BitLocker	Assigned to
Policy1	Not configured	Group3
Policy2	Require	Group4

You create a conditional access policy that has the following settings:

- The Assignments settings are configured as follows:
 1. Users and groups: Group1
 2. Cloud apps: Microsoft Office 365 Exchange Online
 3. Conditions: Include All device state, exclude Device marked as compliant ▪ Access controls is set to Block access.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

QUESTION 71

HOTSPOT

You have several devices enrolled in Microsoft Intune.

You have a Microsoft Azure Active Directory (Azure AD) tenant that includes the users shown in the following table.

Name	Role	Member of
User1	Cloud device administrator	Group1
User2	Intune administrator	Group2
User3	<i>None</i>	<i>None</i>

The device limit restrictions in Intune are configured as shown in the following table.

Priority	Name	Device limit	Assigned to
1	Policy1	15	Group2
2	Policy2	10	Group1
Default	All users	5	All users

You add User3 as a device enrollment manager in Intune.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

QUESTION 72

HOTSPOT

You plan to allow users from the engineering department to enroll their mobile device in mobile device management (MDM).

The device type restrictions are configured as shown in the following table.

Priority	Name	Allowed platform	Assigned to
1	iOS	iOS	Marketing
2	Android	Android	Engineering
Default	All users	All platforms	All users

The device limit restrictions are configured as shown in the following table.

Priority	Name	Device limit	Assigned to
1	Engineering	15	Engineering
2	Wet Region	5	Engineering
Default	All users	10	All users

What is the effective configuration for the members of the Engineering group? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

QUESTION 89

HOTSPOT

You have a Microsoft Azure Active Directory (Azure AD) tenant named contoso.com.

You have three applications named App1, App2, and App3 that have the same file format.

Your company uses Windows Information Protection (WIP). WIP has the following configurations:

- Windows Information Protection mode: Silent
- Protected apps: App1
- Exempt apps: App2

From App1, you create a file named File1.

What is the effect of the configurations? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

You can open File1 from:

▼
App1 only
App1 and App2 only
App1 and App3 only
App1, App2 and App3

If you open File1 in App1, App2, and App3, an action will be logged for:

▼
App1 only
App3 only
App1 and App2 only
App2 and App3 only
App1, App2, and App3

Correct Answer:

VCEUp

Answer Area

You can open File1 from:

▼
App1 only
App1 and App2 only
App1 and App3 only
App1, App2 and App3

If you open File1 in App1, App2, and App3, an action will be logged for:

▼
App1 only
App3 only
App1 and App2 only
App2 and App3 only
App1, App2, and App3

QUESTION 90

HOTSPOT

You have a Microsoft 365 subscription.

You have a group named Support. Users in the Support group frequently send email messages to external users.

The manager of the Support group wants to randomly review messages that contain attachments.

You need to provide the manager with the ability to review messages that contain attachments sent from the Support group users to external users. The manager must have access to only 10 percent of the messages.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

To meet the goal for the manager, create:

A label policy
A retention policy
A supervisor policy
An alert policy
MyAnalytics

To review the messages, the manager must use:

A message trace
An eDiscovery case
MyAnalytics
Outlook Web App

Correct Answer:

Answer Area

To meet the goal for the manager, create:

A label policy
A retention policy
A supervisor policy
An alert policy
MyAnalytics

To review the messages, the manager must use:

A message trace
An eDiscovery case
MyAnalytics
Outlook Web App

Case Study**Overview**

Contoso, Ltd. is a consulting company that has a main office in Montreal and two branch offices in Seattle and New York.

The company has the employees and devices shown in the following table.

Location	Employees	Laptops	Desktops	Mobile device
Montreal	2,500	2,800	300	3,100
Seattle	1,000	1,100	200	1,500
New York	300	320	30	400

Contoso recently purchased a Microsoft 365 E5 subscription.

Existing Environment

The network contains an on-premises Active Directory forest named contoso.com. The forest contains the servers shown in the following table.

Name	Configuration
Server1	Domain controller
Server2	Member server
Server3	Network Policy Server (NPS) server
Server4	Remote access server
Server5	Microsoft Azure AD Connect server

All servers run Windows Server 2016. All desktops and laptops run Windows 10 Enterprise and are joined to the domain.

The mobile devices of the users in the Montreal and Seattle offices run Android. The mobile devices of the users in the New York office run iOS.

The domain is synced to Azure Active Directory (Azure AD) and includes the users shown in the following table.

Name	Azure AD role
User1	<i>None</i>
User2	Application administrator
User3	Cloud application administrator
User4	Global administrator
User5	Intune administrator

The domain also includes a group named Group1.

Requirements

Planned Changes

Contoso plans to implement the following changes:

- Implement Microsoft 365.
- Manage devices by using Microsoft Intune.
- Implement Azure Advanced Threat Protection (ATP).
- Every September, apply the latest feature updates to all Windows computers. Every March, apply the latest feature updates to the computers in the New York office only.

Technical Requirements

Contoso identifies the following technical requirements:

- When a Windows 10 device is joined to Azure AD, the device must enroll in Intune automatically.
- Dedicated support technicians must enroll all the Montreal office mobile devices in Intune.
- User1 must be able to enroll all the New York office mobile devices in Intune.
- Azure ATP sensors must be installed and must **NOT** use port mirroring.
- Whenever possible, the principle of least privilege must be used. ▪

A Microsoft Store for Business must be created.

Compliance Requirements

Contoso identifies the following compliance requirements:

- Ensure that the users in Group1 can only access Microsoft Exchange Online from devices that are enrolled in Intune and configured in accordance with the corporate policy. ▪
- Configure Windows Information Protection (WIP) for the Windows 10 devices.

QUESTION 1 On which server should you install the Azure ATP sensor?

- A. Server1
- B. Server2C. Server3
- D. Server4
- E. Server5

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/azure-advanced-threat-protection/atp-capacity-planning>

QUESTION 2 You need to ensure that the support technicians can meet the technical requirement for the Montreal office mobile devices.

What is the minimum of dedicated support technicians required?

- A. 1
- B. 4
- C. 7
- D. 31

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/sccm/mdm/deploy-use/enroll-devices-with-device-enrollment-manager>

QUESTION 3 You need to create the Microsoft Store for Business.

Which user can create the store?

- A. User2
- B. User3C. User4
- D. User5

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/microsoft-store/roles-and-permissions-microsoft-store-for-business>

QUESTION 4 HOTSPOT

You need to meet the Intune requirements for the Windows 10 devices.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Settings to configure in Azure AD:

Device settings
Mobility (MDM and MAM)
Organizational relationships
User settings

Settings to configure in Intune:

Device compliance
Device configuration
Device enrollment
Mobile Device Management Authority

VCEUp

Correct Answer:

Answer Area

Settings to configure in Azure AD:

Device settings
Mobility (MDM and MAM)
Organizational relationships
User settings

Settings to configure in Intune:

Device compliance
Device configuration
Device enrollment
Mobile Device Management Authority

Section: [none]

Explanation

Explanation/Reference:

QUESTION 5 HOTSPOT

You need to configure a conditional access policy to meet the compliance requirements.

You add Exchange Online as a cloud app.

Which two additional settings should you configure in Policy1? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Correct Answer:

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/intune/create-conditional-access-intune>

QUESTION 6 You need to meet the compliance requirements for the Windows 10 devices.

What should you create from the Intune admin center?

- A. a device compliance policy
- B. a device configuration profile
- C. an app protection policy
- D. an app configuration policy

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/windows/security/information-protection/windows-information-protection/create-wip-policy-using-intune-azure>

QUESTION 7 HOTSPOT

As of March, how long will the computers in each office remain supported by Microsoft? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Seattle:

6 months
18 months
24 months
30 months
5 years

New York:

6 months
18 months
24 months
30 months
5 years

Correct Answer:

Answer Area

Seattle:

6 months
18 months
24 months
30 months
5 years

New York:

6 months
18 months
24 months
30 months
5 years

Section: [none]

Case Study

Overview

ADatum Corporation is an international financial services company that has 5,000 employees.

ADatum has six offices: a main office in New York and five branch offices in Germany, the United Kingdom, France, Spain, and Italy.

All the offices are connected to each other by using a WAN link. Each office connects directly to the Internet.

Existing Environment

Current Infrastructure

ADatum recently purchased a Microsoft 365 subscription.

All user files are migrated to Microsoft 365.

All mailboxes are hosted in Microsoft 365. The users in each office have email suffixes that include the country of the user, for example, user1@us.adatum.com or user2@uk.adatum.com.

Each office has a security information and event management (SIEM) appliance. The appliance comes from three different vendors.

ADatum uses and processes Personally Identifiable Information (PII).

Problem Statements

ADatum entered into litigation. The legal department must place a hold on all the documents of a user named User1 that are in Microsoft 365.

Requirements

Business Goals

ADatum wants to be fully compliant with all the relevant data privacy laws in the regions where it operates.

ADatum wants to minimize the cost of hardware and software whenever possible. **Technical**

Requirements

ADatum identifies the following technical requirements:

- Centrally perform log analysis for all offices.
- Aggregate all data from the SIEM appliances to a central cloud repository for later analysis.
- Ensure that a SharePoint administrator can identify who accessed a specific file stored in a document library.
- Provide the users in the finance department with access to Service assurance information in Microsoft Office 365.
- Ensure that documents and email messages containing the PII data of European Union (EU) citizens are preserved for 10 years.
- If a user attempts to download 1,000 or more files from Microsoft SharePoint Online within 30 minutes, notify a security administrator and suspend the user's user account.
- A security administrator requires a report that shown which Microsoft 365 users signed in. Based on the report, the security administrator will create a policy to require multi-factor authentication when a sign-in is high risk.
- Ensure that the users in the New York office can only send email messages that contain sensitive U.S. PII data to other New York office uses. Email messages must be monitored to ensure compliance. Auditors in the New York office must have access to reports that show the sent and received email messages containing sensitive U.S. PII data.

QUESTION 1 Which report should the New York office auditors view?

- A. DLP incidents
- B. Top Senders and Recipients
- C. DLP false positives and overrides
- D. DLP policy matches

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/data-loss-prevention-policies>

QUESTION 2 You need to meet the technical requirement for large-volume document retrieval.

What should you create?

- A. an activity policy from Microsoft Cloud App Security
- B. a data loss prevention (DLP) policy from the Security & Compliance admin center
- C. a file policy from Microsoft Cloud App Security
- D. an alert policy from the Security & Compliance admin center

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/office365/securitycompliance/activity-policies-and-alerts>

QUESTION 3 You need to recommend a solution for the security administrator. The solution must meet the technical requirements.

What should you include in the recommendation?

- A. Microsoft Azure Active Directory (Azure AD) Privileged Identity Management
- B. Microsoft Azure Active Directory (Azure AD) Identity Protection
- C. Microsoft Azure Active Directory (Azure AD) conditional access policies
- D. Microsoft Azure Active Directory (Azure AD) authentication methods

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

References: <https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/untrusted-networks>

QUESTION 4 You need to meet the technical requirement for the EU PII data.

What should you create?

- A. a data loss prevention (DLP) policy from the Security & Compliance admin center
- B. a data loss prevention (DLP) policy from the Exchange admin center
- C. a retention policy from the Exchange admin center
- D. a retention policy from the Security & Compliance admin center

Correct Answer: D
