Microsoft Dynamics 365 Unified Operations Core

Question Set 1

QUESTION 1

A company plans to implement the case management feature of Dynamics 365 for Finance and Operations.

You need to describe the scenarios in which you should use the case management tool.

Which three scenarios should be used? Each correct answer presents a complete solution.

<https://vceplus.com/>

NOTE: Each correct selection is worth one point.

- A. Since case activities can be assigned to different people, a case can use workflow.
- B. Although the sales module already has return-order functionality, case management is still used for customer returns and claims.
- C. Knowledge articles used by case management are associated with specific functional modules.
- D. A human resources generalist can use the case management tool to track employee interactions, even though the department stores confidential information about employees.
- E. A case can be used to track both external and internal issues.

Correct Answer: CDE

Section: [none]

Explanation

Explanation/Reference:

Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/fin-and-ops/organization-administration/cases>

QUESTION 2

You set up security roles for the users in a company.

You must use standard security roles when possible.

You need to identify the standard security roles.

Which of the following can you assign to a user as a standard security role?

- A. Waterspider
- B. System engineer
- C. Developer
- D. Business development manager

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

QUESTION 3

A company implements Dynamics 365 for Finance and Operations.

You have a requirement that the component data for address structure in the system be available in Portuguese (Brazil).

You need to provide address and contact information purpose with translation.

What should you do?

- A. Under Organization administration, on the Global addresses tab, enter the appropriate translation value in the translations form
- B. In User options, set the language preference to Portuguese pt-BR and enter addresses for customers and vendors
- C. Upload files to Dynamics 365 Translation Services (DTS) for conversion
- D. Apply return from Dynamics 365 Translation Services (DTS) to the system by submitting a support ticket

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

QUESTION 4

A company implements Dynamics 365 for Finance and Operations and sets up and configures the system to support its reporting requirements using Microsoft Power BI. A user creates a chart in her Power BI instance to display customer order patterns for the top 10 customers daily.

You need to configure the Power BI integration to pin the chart to the user's workspace in Dynamics 365 for Finance and Operations.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. In the Dynamics 365 for Finance and Operations client, authorize sign-in to Power BI.
- B. In Azure Active Directory, grant the customer services manager administrative permissions to the company's Azure Active Directory account to run the report.
- C. In Microsoft Azure Active Directory, add the PowerBI service to the app registration and grant the necessary delegated permissions.
- D. In the Entity store, configure the Application ID and Application key for PowerBI.
- E. In the Dynamics 365 for Finance and Operations System administration setup screen in PowerBI.com, configure the application ID and application key.

Correct Answer: ACE

Section: [none]

Explanation

Explanation/Reference: Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/dev-itpro/analytics/configure-power-bi-integration>

QUESTION 5 HOTSPOT

You are a Dynamics 365 for Finance and Operations system administrator.

You need to configure the system to support several new use case scenarios.

Which features should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Scenario	Value
Business process can be documented by clicking through the steps of a user in the application.	<div>▼</div> <ul style="list-style-type: none"> Business process modeler Task recorder Operational workspaces Test generation
Documented steps can be used for test-code generation	<div>▼</div> <ul style="list-style-type: none"> Download the task recording package Download the Business process modeler package Save the developer recording file Save to a disconnect Lifecycle Services library
A user can search for a business process and the guided by the prompted steps in the application	<div>▼</div> <ul style="list-style-type: none"> Maintenance mode Business process modeler Help Microsoft SharePoint
A user can be prevented from clicking in spaces during a business-scenario training walkthrough	<div>▼</div> <ul style="list-style-type: none"> Error detection Security roles Gestures On-rails

Correct Answer:

QUESTION 6

You are a Dynamics 365 for Finance and Operations security administrator.

Users are reporting that they cannot access a given form in the system.

You need to quickly identify what roles, duties, and privileges grant access to this form to determine the best course of action for granting access.

What should you do?

- A. Security duty assignments report
- B. Security role access report
- C. Security development tool
- D. Security diagnostics
- E. Maintenance mode

Correct Answer: D

Section: [none]

Explanation

Explanation/Reference:

QUESTION 7

A company implements Dynamics 365 for Finance and Operations.

The company wants to utilize Case management to track project issues and risks and associate them to the projects. Project managers will be responsible for managing the new cases.

You need to configure the system.

What should you do?

- A. Create case category security roles named Issue and Risk and assign them to the Project managers duty.
- B. Create case activities for Issue and Risk
- C. Create parent case categories named Issue and Risk
- D. Create case subcategories named Issue and Risk

Correct Answer: D

Section: [none]

Explanation

Explanation/Reference:

QUESTION 8

A company implements Dynamics 365 for Finance and Operations.

You are the primary approver for purchase requisitions that are greater than \$500,000. You are going on vacation for two weeks.

You need to assign another user as the approver only for purchase requisitions greater than \$500,000.

What should you do?

- A. Under User Options, add a user and assign the scope of Module
- B. Under User Options, add a user and assign the scope of All
- C. Under User Options, add a user and assign the scope of Workflow

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

QUESTION 9

You are a Dynamics 365 for Finance and Operations security administrator.

You have 50 identified purchase order numbers that are not used in the system and are not being recycled. Why they are missing is unknown. Purchasing operations is currently operating around the clock and no downtime can occur.

You need to use the missing numbers in the system.

What should you do?

- A. Run the Number sequence wizard for the purchase order number sequence
- B. Change the number sequence to continuous and create the new purchase orders
- C. Run Automatic cleanup of number sequence and create the new purchase orders
- D. Change the number sequence to non-continuous and create the new purchase orders
- E. Change the number sequence to manual, then manually assign the number sequences to the new purchase orders

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

QUESTION 10

DRAG DROP

A company needs to set up its printers to work with Dynamics 365 for Finance and Operations.

You need to set up the printers for network printing from the Dynamics 365 client browser.

Which three actions should be performed in order? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions		Answer Area
Activate the network printers	 	Install and configure a document routing agent
Install and configure a document routing agent		Register network printers in Finance and Operations
Set up the network printer and assign a static IP		Activate the network printers
Register network printers in Finance and Operations		

Correct Answer:

Actions		Answer Area
Activate the network printers	 	Install and configure a document routing agent
Install and configure a document routing agent		Register network printers in Finance and Operations
Set up the network printer and assign a static IP		
Register network printers in Finance and Operations		

Section: [none]

Explanation

QUESTION 11

You are working as a functional consultant in a new Dynamics 365 for Finance and Operations environment.

Your organization conducts business within the United States, with offices in several states. The organization has legal entities defined for each state and must share common tables between entities.

Each legal entity has the following setup:

- Users
- Products
- Customers
- Tax authorities
- Payment terms
- Human Resources data
- Site-specific stock ordering

You need to consolidate reports used for financial-consolidation reporting in a new legal entity.

What should you do?

- A. Define the consolidation period
- B. Specify the range of product for consolidation
- C. Define Human Resources data
- D. Create users

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

QUESTION 12

You are a Dynamics 365 for Finance and Operations system administrator. You have production and testing environments. You move the workflow from the testing environment to the production environment.

The workflow in the production environment is stuck in a wait state.

You need to resolve the issue with the workflow in the production environment.

What should you do?

- A. Set the workflow batch job to critical
- B. Set the workflow messaging batch job group
- C. Grant the user workflow permissions
- D. Set the workflow execution account in the workflow parameters

Correct Answer: D

Section: [none]

Explanation

Explanation/Reference:

QUESTION 13

A company implements Dynamics 365 for Finance and Operations.

They need additional information and want a subledger to record information for additional reporting rather than customizing all reports.

You need to set up the posting to accommodate the need for a subledger.

Which three actions should you take? Each answer presents part of the solution.

- A. Update existing reports to prevent data in the identified area from reporting
- B. Create posting profiles to post to the identified area as needed for the request
- C. Create posting definitions to post to the identified area as needed for the request
- D. Update existing reports to add data in the identified area
- E. Identify an area of the chart of accounts to record to as the subledger

Correct Answer: BDE

Section: [none]

Explanation

Explanation/Reference:

QUESTION 14

You are a systems administrator at a company that has implemented Dynamics 365 for Finance and Operations.

New employees are starting at the company.

You need to extend the electronic signatures functionality to them.

Which two actions should you perform? Each answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. On the Email parameters page, specify that SSL is required
- B. Specify the user's email address
- C. In License configuration, enable Maintenance mode
- D. Select the Electronic signature check box

Correct Answer: CD

Section: [none]

Explanation

Explanation/Reference:

Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/fin-and-ops/organization-administration/tasks/set-up-electronic-signatures>

QUESTION 15

A multinational company plans to implement centralized procurement using purchase requisition workflows.

Multiple workflows must be of the same type. Each region must use its own purchase requisition workflow.

You need to implement the workflows.

What should you do?

- A. Configure Instructions for users
- B. Configure the workflow owner
- C. Configure automated tasks
- D. Configure manual tasks
- E. Add a condition for running the workflow

Correct Answer: E

Section: [none]

Explanation

Explanation/Reference:

QUESTION 16

You set up Dynamics 365 for Finance and Operations.

Your organization will use email with the application.

You need to ensure that email will be sent using typical secure settings.

What setting must be set up as specified?

- A. Specify if SSL is required is selected.
- B. Information rights management is enabled.
- C. In-place hold and Litigation hold are enabled.
- D. In-place eDiscovery is enabled.

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

QUESTION 17

You are a Dynamics 365 for Finance and Operations systems analyst.

A user configures an alert for purchase orders that have a delivery date of two weeks away. However, batch alerts are not being sent.

You need to troubleshoot why alerts are not processing

What two actions may be the cause for alerts not being sent? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. A batch processing window may be set up for that batch job.
- B. The date format in the Dynamics 365 tenant does not match the format in the client device.
- C. The change-based alert has expired.

D. There may not be a batch server assigned to the batch job.

Correct Answer: CD

Section: [none]

Explanation

Testlet 2

Background

Relecloud is a cloud point of sale (POS) software company specializing in direct to consumer food stands. They have multiple business units using their new Dynamics 365 Finance and Operations implementation including customer-facing representatives for account management, technical support, customer service, and finance. There are two legal entities, one for operations and one for financials. Customers pay for the Relecloud POS software monthly and everything is deployed in the cloud. The Dynamics instance URL is <https://relecloud prod operations.dynamics.com>.

Munson's Pickles and Preserves Farm is a company that uses Relecloud's cloud POS software to sell their produce in farmers markets. Munson's was one of Relecloud's first customers, and Relecloud stocks their employee lunchroom with Munson's products. Munson's has also been subcontracting their employees to Relecloud to help functionally build a best-in-breed solution. Munson's employees assume multiple organizational positions. Each employee has only a single email address by which people can contact them.

Current environment: System and IT

- Dynamics 365 for Finance and Operations was recently updated.
- All recurring batch jobs in the system were removed and recreated.
- The alert notification batch processing was recently changed from every 10 minutes to once every two hours. ▪ Real-time reporting of the information is not needed.

Current environment: Customer Service

- Customer credit requests are entered through the customer service team.
 - All requests must contain a date, time, reason for request, and customer service notes on initial recommendations for credit action.
 - Customers have multiple points of contact who can enter support tickets to the Relecloud portal.
 - Tickets are automatically generated in the support team's third-party system when they are created by support technicians. ▪
- The Dynamics 365 email client mail is used to correspond with customers.

Current environment: Technical Support/IT

- The technical support team gets involved when technical issues arise with the Relecloud software. Service tickets are entered and get escalated to the team, depending on the issue.
- Microsoft Flow is used for automating different workstreams.
- Workflows are not configured for the technical support request flows in Dynamics 365 Finance and Operations.
- Management and history of technical support tickets are handled in a third-party issue management solution.
- The technical service team manages issues related to the Relecloud POS as well as the Dynamics 365 application.

Current environment: Account Representatives

- Each customer is assigned a single account representative.
- Account representatives use multiple devices.
- Only account representatives have the ability to approve credits.
- All email to customers come through their own Outlook instance.

Current environment: Finance

- Customers do not have invoice accounts.
- Only finance resources have the ability to enter credits.
- Credits can be entered by any of the four finance resources assigned the Credits and Refunds security role.
- If the request has not been updated in four days, the request is escalated to the Controller. The account representative must be alerted when this occurs.

Requirements: Technical support/IT

- Support technicians must use Microsoft's existing knowledge base to resolve open issues.
- If an issue exists, support technicians must report the status of the issue on a weekly basis.
- If there is no existing support request, support technicians must create one for Microsoft evaluation.
- All software must be installed centrally when possible.
- The Dynamics 365 Finance and Operations production environment must have an update cadence of every second Saturday from 4-7 A.M. EST.
- Updates must be tested in separate environment. **Requirements: Account representatives**

- Account representatives must be able to see only the relevant customer fields and records automatically from their dashboard.
- Account representatives must be able to export the list of customers to Microsoft Excel.
- Account representatives must be able to navigate to the customer master record for any editing or record entry tasks.
- The forms must be relevant based on each account representative's needs.
- Account representatives need a centralized location to see multiple data components.
- Account representatives require an offline list of their current customers in Excel with only the fields they need.
- The IT Director must reassign all instances of an account representative's customer contacts if the representative leaves the company.
- An alert must be sent automatically to an account representative when a credit is issued or any data is changed on a customer's record. **Requirements:**

Financials

- Any refund must be printed as a physical check.
- All printers must be exclusive to the financial legal entity.

Issues

- Typing 'pickle' in the search box yields no returned results for the account representative.

- After the latest update, an account representative reports that he is no longer receiving alert notifications when a customer's contact is changed. ▪
An account representative has recently resigned.

QUESTION 1

You need to determine why the sales associate is not able to see Munson's in the search results.

What is the cause of the issue?

- A. The search criteria is searching for only names that are exactly 'pickles'.
- B. The search criteria is only able to search by the shortened search name of the customer.
- C. The search criteria is searching for all customer names that start with 'pickles'.
- D. The search criteria is case sensitive.

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

Reference: <https://docs.microsoft.com/en-us/dynamics365/customer-engagement/basics/search-records>

QUESTION 2

You need to configure the system for account representatives.

Which two actions should you perform? Each correct answer presents a partial solution.

NOTE: Each correct selection is worth one point.

- A. Recreate the job alert as a change-based alert.
- B. Enable change-based alerts.
- C. Increase the batch job running frequency.
- D. Specify the batch server for the alert notifications job.

Correct Answer: AB

Section: [none]

Explanation

Explanation/Reference:

QUESTION 3

You need to connect the Excel instance to the Relecloud production instance.

What should you do?

- A. Set the server URL to Microsoft.Dynamics.Platform.Integration.Office.UrlViewerApplet.
- B. Set the server URL to <https://relecloud-prod.operations.dynamics.com>.
- C. Set the App Correlation ID to <https://relecloud-prod.operations.dynamics.com>.
- D. Set the App Correlation ID to the App Id in the Dynamics 365 Office App Parameters.

Correct Answer: B

Section: [none]

Explanation

<https://docs.microsoft.com/en-us/dynamics365/unified-operations/dev-itpro/office-integration/use-excel-add-in>

Question Set 1

QUESTION 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a Dynamics 365 for Finance and Operations system administrator. You have a test environment that is used by several people at any given time.

You create a new data entity in your development and migrate the code to the test environment. In the test environment, you are unable to find the data entity in the list.

You need to locate the data entity.

Solution: In the Data management framework parameter screen, refresh the Entity list.

Does the solution meet the goal?

<https://vceplus.com/>

A. Yes

B. No

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a Dynamics 365 for Finance and Operations system administrator. You have a test environment that is used by several people at any given time.

You create a new data entity in your development and migrate the code to the test environment. In the test environment, you are unable to find the data entity in the list.

You need to locate the data entity.

Solution: Enable the Public API check box in the data entity.

Does the solution meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

QUESTION 3

You are a Dynamics 365 for Finance and Operations system administrator.

Data is being migrated from a customized version of a legacy application to Dynamics 365 for Finance and Operations. Some of the fields in the entity are the same, and some are different.

As a starting point, you need to automatically map as many fields as possible within Dynamics 365 for Finance and Operations.

Which feature or tool should you use?

- A. Use the Mapping visualization tool
- B. Generate source mapping
- C. Use Data templates

- D. Use the Data task automation tool
- E. Copy configuration data

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/dev-itpro/data-entities/data-entities-data-packages?toc=/fin-and-ops/toc.json#mapping>

QUESTION 4

You plan the migration from Dynamics AX 2009 to a Dynamics 365 for Finance and Operations environment.

You will be moving data.

You need to create a data package from a group of entities in Dynamics AX 2009.

What should you use?

- A. Upgrade analyzer
- B. Code upgrade estimation tools
- C. Dynamics AX 2009 Data migration tool (DMT)
- D. Data Import/Export Framework (DIXF)

Correct Answer: D

Section: [none]

Explanation

Explanation/Reference:

Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/dev-itpro/migration-upgrade/ax2009-upgrade-export-package>

QUESTION 5

You are a Dynamics 365 for Finance and Operations system administrator.

You manage a system that imports a large volume of sales orders from multiple systems daily. The system encounters a performance problem due to the amount of data.

You need to improve performance for the import.

What should you do?

- A. Create an ODBC-type source data format and import directly from the database.
- B. Enable data import in recurrence.
- C. Configure entity execution parameters to make the data import multi-threaded.
- D. Enable change for the data entities.

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

QUESTION 6

You plan a data migration from Dynamics AX 2009 to a Dynamics 365 for Finance and Operations environment.

You need to ensure that you can perform the data migration.

What should you do first?

- A. Upgrade the existing on-premises environment to Dynamics 365 for Finance and Operations online
- B. Migrate content to Dynamics POS (Point-of-Sale) 2009
- C. Upgrade the existing on-premises environment to Dynamics AX 2012 R2
- D. Migrate content to Dynamics 365 Business Central

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

QUESTION 7

You plan the migration from Dynamics AX 2012 R3 to a Dynamics 365 for Finance and Operations environment.

You will be using Lifecycle Services (LCS) and the tools provided with it.

You need to clean up data, review and configure SQL optimizations, and identify deprecated features in your code.

What tool should you use?

- A. Microsoft Azure DevOps
- B. Code upgrade estimation tools
- C. Data Import/Export Framework (DIXF)
- D. Upgrade analyzer

Correct Answer: D

Section: [none]

Explanation

Explanation/Reference:

Question Set 1

QUESTION 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a functional consultant who is deploying Dynamics 365 for Finance and Operations.

The implementation must:

- Use an iterative approach
- Integrate with real-world data
- Enforce standards and governance
- Implement multiple rounds of feedback

You need to deploy and validate the implementation.

Solution: Use the XPPBP tool to export customizations and scenarios from a development sandbox. Make changes to the sandbox containing users. Deploy from the sandbox to the production environment.

<https://vceplus.com/> Does the

solution meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: [none]

Explanation

Explanation/Reference:

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are a functional consultant who is deploying Dynamics 365 for Finance and Operations.

The implementation must:

- Use an iterative approach
- Integrate with real-world data
- Enforce standards and governance
- Implement multiple rounds of feedback

You need to deploy and validate the implementation.

Solution: Perform a fit-gap analysis. Configure Dynamics 365 for Finance and Operations to address the functional gap. Deploy the configuration.

Does the solution meet the goal?

- A. Yes
- B. No

Correct Answer: A

Section: [none]

Explanation

Explanation/Reference:

QUESTION 3

You are a Dynamics 365 for Finance and Operations systems administrator.

Your company needs to document and test all possible scenarios for a given implementation. Implementation gaps need to be documented using the tool available for tracking and linking to delivered extensions.

You need to identify the correct tool to accomplish this.

What should you use? A.

APQC Unified Libraries

- B. Shared asset library
- C. Business process modeler (BPM)
- D. Microsoft Azure DevOps

Correct Answer: C

Section: [none]

Explanation

Explanation/Reference:

QUESTION 4

DRAG DROP

You are the project owner in a Lifecycle Services (LCS) project to deploy a Dynamics 365 for Finance and Operations environment.

The system must be configured to enable testers to record processes that become business and test plans.

You need to configure the system to generate User Acceptance Testing (UAT) test plans.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions

Enable Azure DevOps sync
Enable Sync test cases
Configure system administrator help parameters to the LCS project
Create business process libraries in the LCS project
Configure Azure DevOps for the LCS project

Answer Area

Correct Answer:

Actions

Enable Azure DevOps sync
Enable Sync test cases
Configure system administrator help parameters to the LCS project
Create business process libraries in the LCS project
Configure Azure DevOps for the LCS project

Answer Area

Create business process libraries in the LCS project
Configure Azure DevOps for the LCS project
Configure system administrator help parameters to the LCS project
Enable Azure DevOps sync
Enable Sync test cases

Section: [none]

Explanation

Explanation/Reference:

QUESTION 5

You are a Dynamics 365 for Finance and Operations systems administrator.

An issue has been reported that appears to be a base Dynamics 365 bug. The system was last updated three weeks ago. Searching for the issue by description in Lifecycle Services is not working.

You need to determine other ways to search for similar issues to help narrow down the search before opening a Microsoft ticket.

What are two ways to search for a released hotfix? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. By industry
- B. By Microsoft support ticket number
- C. By AOT object name
- D. Date range for release

Correct Answer: BC

Section: [none]

Explanation

Explanation/Reference:

Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/dev-itpro/lifecycle-services/issue-search-lcs>

QUESTION 6

You implement Dynamics 365 for Finance and Operations. The implementation will undergo User Acceptance Testing (UAT).

You create test case recordings. To coordinate testing across multiple environments, UAT must be integrated with Microsoft Azure DevOps.

You need to configure Business process modeler (BPM) and Azure DevOps to complete user acceptance testing.

Which three actions should you perform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Synchronize the BPM library with Azure DevOps
- B. Create a test pass and test case in Azure DevOps
- C. Upload saved Task recorder files to BPM
- D. Create a test plan and test suites in Azure DevOps
- E. Synchronize the BPM library with a Git repo
- F. Upload saved Task recorder files to Azure DevOps

Correct Answer: ACD

Section: [none]

Explanation

Explanation/Reference:

Reference: <https://docs.microsoft.com/en-us/dynamics365/unified-operations/dev-itpro/lifecycle-services/using-task-guides-and-bpm-to-create-user-acceptance-tests>

QUESTION 7

You are a Dynamics 365 for Finance and Operations implementation team lead.

A series of test plans need to be created and tracked during a company's development phase. Multiple users will be testing multiple aspects as code is released. Issues and remediations to bugs will also need to be tracked.

You need to identify Microsoft solutions that offer these capabilities.

What should you use?

- A. Dynamics 365 for Finance and Operations
- B. Lifecycle Services (LCS)
- C. Solution management
- D. Microsoft Azure DevOps

Correct Answer: D

Section: [none]

QUESTION 9

You are a Dynamics 365 for Finance and Operations system administrator.

A user is reporting an issue with the Sales Order form. The UI for the form is not loading properly, and there are some performance issues. The object was working fine until the most recent update release. The user has personalized this form, is using Microsoft Internet Explorer 11, and no other users are reporting issues.

You need to resolve the issue.

What should you do?

- A. Export, delete, then reimport the usage data for the sales form object.
- B. Disable and then re-enable the user.
- C. Reset all the usage data for the user.
- D. Reimport and compile the AOT object causing issues.

Correct Answer: C
