#### QUESTION 2

A company plans to implement the case management feature of Dynamics 365 for Finance and Operations.

You need to describe the scenarios in which you should use the case management tool.

Which three scenarios should be used? Each correct answer presents a complete solution.

**NOTE:** Each correct selection is worth one point.

<https://vceplus.com/>

- A. Since case activities can be assigned to different people, a case can use workflow.
- B. Although the sales module already has return-order functionality, case management is still used for customer returns and claims.
- C. Knowledge articles used by case management are associated with specific functional modules.
- D. A human resources generalist can use the case management tool to track employee interactions, even though the department stores confidential information about employees.
- E. A case can be used to track both external and internal issues.

#### QUESTION 4

A company implements Dynamics 365 for Finance and Operations and sets up and configures the system to support its reporting requirements using Microsoft Power BI. A user creates a chart in her Power BI instance to display customer order patterns for the top 10 customers daily.

You need to configure the Power BI integration to pin the chart to the user's workspace in Dynamics 365 for Finance and Operations.

Which three actions should you perform? Each correct answer presents part of the solution.

**NOTE:** Each correct selection is worth one point.

- A. In the Dynamics 365 for Finance and Operations client, authorize sign-in to Power BI.
- B. In Azure Active Directory, grant the customer services manager administrative permissions to the company's Azure Active Directory account to run the report.
- C. In Microsoft Azure Active Directory, add the PowerBI service to the app registration and grant the necessary delegated permissions.
- D. In the Entity store, configure the Application ID and Application key for PowerBI.
- E. In the Dynamics 365 for Finance and Operations System administration setup screen in PowerBI.com, configure the application ID and application key.

**Correct Answer:** ACE
