- A. Survive Rules contains one or more targets.
- B. If any survive rule could not select a record, the first record is selected as the best record.
- C. If any survive rule could not select a record, the last record is selected as the best record.
- D. All of the above.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 12

Which of the following is TRUE regarding the use of Match Blocking?

- A. Blocking fields are grouped using the primary key's hash value.
- B. Each Block has 1000 records.
- C. Every record in the block becomes an automatic residual.
- D. Blocking fields must match exactly for a candidate set to be created/evaluated.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 13

Which of the following is a good description of data quality?

<https://www.vceplus.com/>

- A. What are the sources of the data.
- B. How many volumes of data there are.
- C. How reliable is the accuracy of the data.
- D. How many variations of the data there are.

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 14

Which of the following is NOT a member of Standardization Rule Sets?

- A. Classification table
- B. Dictionary file
- C. Pattern action file
- D. Parser file

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 15

When using QualityStage Match Stage, blocking strategy is used for _____

- A. grouping "like" records of high probability of match and comparing these records against all residual records.
- B. eliminating records that do not have data value in the blocking fields from further matching.
- C. grouping "like" records of high probability of match and comparing these records against records in other "blocks".
- D. grouping "like" records of high probability of match and comparing these records against each other.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 16

Which of the following statements is TRUE?

- A. Word Investigate uses Standardization Rule Set.
- B. Word Investigate uses Survive Rule Set.
- C. Word Investigate uses both Standardization and Survive Rule Sets.
- D. None of the above.

Correct Answer: A

Section: (none)
