Microsoft MS-740

Troubleshooting Microsoft Teams (beta)

Version 1.0

Exam A

QUESTION 1

You work as a Systems Administrator for your company. The company has recently purchased a subscription to Microsoft 365.

All users in your company have a Microsoft 365 E3 license.

You are in the process of configuring Microsoft Teams.

You need to configure Microsoft Teams to ensure that users within your company can collaborate with users in a partner company. You plan to create guest accounts for users in the partner company.

Users with Guest accounts must not be able to invite other guests.

Only users in the partner company must be able to collaborate with your users by using Microsoft Teams.

Which of the following should you configure?

- A. The external sharing settings in the SharePoint Admin Center.
- B. The external collaboration settings in Azure Active Directory.
- C. The **Anonymous users can join a meeting** setting in the Teams Meeting Settings.
- D. The Global Meeting Policy in the Teams Admin Center.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 2

You work as a Systems Administrator for your company. The company has recently purchased a subscription to Microsoft 365.

All users in your company have a Microsoft 365 E3 license.

You are in the process of configuring Microsoft Teams.

You enable Guest access in Microsoft Teams to allow users in your company to collaborate with external users.

A company security policy states that guest users should not be able to use their cameras during Microsoft Teams meetings. Company users should be able to use their cameras during Microsoft Teams meetings.

You need to configure Microsoft Teams to meet the security requirement.

Which of the following actions should you perform in the Microsoft Teams Admin Center?

- A. Configure the External access settings in Org-wide settings.
- B. Configure the Teams settings in Org-wide settings.
- C. Configure the Guest access settings in Org-wide settings.
- D. Configure the Audio & Video settings in the default Meeting Policy

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 3 You work as a Microsoft 365 Administrator for your company. All users have Microsoft 365 licenses.

Users frequently collaborate by using private chats in Microsoft Teams.

You need to ensure that a single user is unable to permanently delete private chats.

Which of the following should you configure?

- A. The user's Microsoft 365 license options in the Microsoft 365 Admin Center.
- B. A meeting policy in Microsoft Teams.
- C. A litigation hold on the user's mailbox.
- D. A Sensitivity Label in the Security & Compliance Admin Center.

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 4

You work as a Systems Administrator for your company. The company has departments named Sales, Accounts, Research and Production.

The company has recently purchased a subscription to Microsoft 365.

All users in your company have a Microsoft 365 E3 license.

You are in the process of configuring Microsoft Teams. You plan to create a team for each of the company departments.

All users have the Microsoft Teams desktop client installed.

You need to ensure that the Research team is labelled as Confidential when viewed in the Microsoft Teams client.

Which of the following actions should you perform?

- A. Configure and publish a Sensitivity Label in the Security & Compliance admin center.
- B. Configure and publish a Retention Label in the Security & Compliance admin center.
- C. Configure a Teams policy in the Microsoft Teams admin center.
- D. Configure the Meeting Settings in the Microsoft Teams admin center.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 5

You work as a Systems Administrator for your company. The company has departments named Sales, Accounts, Research and Production.

The company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E5 license.

You have configured a Team for each of the departments.

Currently, users in any department can use Microsoft Teams to communicate with users from any other department.

You need to configure the environment to ensure that users in the Research team can only communicate with other users in the Research team by using Microsoft Teams.

What should you do?

- A. Configure a Teams Meeting policy.
- B. Configure Information Barrier policies.
- C. Configure an App Protection policy.
- D. Configure Conference Bridges.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 6 You work as a Systems Administrator for your company. The company has several departments.

The company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E5 license.

You have configured a Team for each of the departments.

You need to ensure that you are notified if a user creates a new Team by using the Create a Team option in the Microsoft Teams client.

Which of the following actions should you perform?

- A. Configure the External Collaboration settings in the Azure Active Directory admin center.
- B. Configure a supervision policy in the Security & Compliance admin center.
- C. Configure an eDiscovery Case in the Security & Compliance admin center.
- D. Configure an alert policy in the Security & Compliance admin center.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 7 You work as a Systems Administrator for your company. The company has a subscription to Microsoft 365.

All users in your company have a Microsoft 365 E5 license.

A user named User1 has the Microsoft Teams desktop client on his Windows 10 client computer.

User1 reports several problems when using Microsoft Teams.

You need to view the debug logs on User1's computer.

Which of the following actions should you perform to generate the debug logs?

- A. Press the following key combination: **Ctrl+Alt+Shift+1**
- B. Right click on the Teams icon and select **Get Logs**
- C. Use Windows Event Viewer and browse to the **Application Log**.
- D. Run a **Usage report** in the Teams admin center.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 8 Your company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E5 license.

All users use Microsoft Teams for collaboration.

A manager wants to be able to view the Microsoft Teams usage reports.

You need to assign the manager permission to view the usage reports. The solution must use the principle of least privilege.

Which of the following actions should you perform?

- A. Assign the Teams Communications Administrator role to the manager.
- B. Assign the Security Administrator role to the manager.
- C. Assign the Reports Reader role to the manager.
- D. Assign the Compliance Manager role to the manager.

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 9

Your company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E5 license.

All users use Microsoft Teams for collaboration.

A manager asks you to generate a report that contains the following information:

The number of Teams meetings organized in the last 30 days.

The number of active users in each over the last 30 days.

You navigate to the Analytics & Reports section in the Microsoft Teams admin center.

Which report should you run?

- A. Apps usage
- B. Teams usage
- C. Teams device usage
- D. Teams user activity

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 10

Your company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E5 license.

All users use Microsoft Teams for collaboration.

An Office 365 group contains 300 users including 50 guest accounts. A Microsoft Team has been created from the group.

You need to ensure that the group contains only members and guest accounts that require access to the group. Any members or guest accounts that are either inactive or no longer require access to the group should be removed. The solution must ensure that group membership is validated every month.

Which of the following should you configure?

- A. A Conditional Access policy
- B. A Supervision policy
- C. An Access Review
- D. A Teams policy

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 11

You work as a Systems Administrator for your company. The company has a subscription to Microsoft 365 and all users have a Microsoft 365 E3 license.

The company network includes Windows Server 2019 servers that host a Virtual Desktop Infrastructure (VDI).

All company users use the Microsoft Teams desktop client in non-persistent virtual desktops.

Microsoft has released an update to the Microsoft Teams client that includes several new features.

You need to ensure that all virtual desktop users are able to use the updated Microsoft Teams clients.

Which of the following actions should you perform?

- A. Configure the Teams Upgrade Policy with the Upgrade to Teams setting.
- B. Uninstall the Microsoft Teams MSI package from the VM image and install the latest version.
- C. Configure a Group Policy Object to deploy the latest version of the Microsoft Teams client.
- D. Configure Windows Updates on the servers hosting the VDI.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 12

You work as a Systems Administrator for your company. The company has several departments including a Research and Development department.

The company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E5 license.

You have configured a Team for each of the departments.

The Research & Development team has a channel named Design. The company plans to work with an external contractor to help design a new product. You have created a guest account for the contractor.

The contractor reports that he is unable to post to the Design channel.

You need to enable the contractor to post to the Design channel.

Which of the following actions should you perform?

- A. Configure the Global Meeting policy in the Microsoft Teams admin center.
- B. Configure the external collaboration settings in Azure Active Directory.
- C. Configure the Default Teams App Permission policy in the Microsoft Teams admin center.
- D. Configure the Guest Access settings in the Microsoft Teams admin center.

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 13

You work as a Systems Administrator for your company. The network includes an Active Directory domain and 200 client computers that run Windows 10. All client computers are joined to the on-premises Active Directory domain and registered with Azure Active Directory.

The company has a Microsoft 365 subscription that includes Microsoft Intune. All client computers are enrolled in Microsoft Intune.

You need to deploy the Microsoft Teams client to the client computers.

Which two of the following deployment methods could you use? (Choose two).

- A. Configure a Conditional Access policy in Azure Active Directory.
- B. Configure an app in Microsoft Intune.
- C. Configure an Active Directory Group Policy Object (GPO)
- D. Configure an app registration in Azure Active Directory.
- E. Configure a Collection in Azure Active Directory.

Correct Answer: BC

Section: (none)

Explanation

Explanation/Reference:

QUESTION 14 You work as a Systems Administrator for your company. The company has several departments.

The company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E3 license.

You have configured a Team for each of the departments. Each team includes several guest accounts for external contractors.

A security policy has the following requirements:

Contractors must not be able to create channels in Microsoft Teams.
Contractors must not be able to update channels in Microsoft Teams.

You need to implement the security policy.

Which two of the following actions would meet the requirement? (Choose two)

- A. Run the `Get-AzureADGroup` and `Set-AzureADGroup` PowerShell cmdlets.
- B. Configure the **Guest Access** settings in the Microsoft Teams admin center.
- C. Modify the default **Meeting** policy.
- D. Modify the **Meeting** settings.
- E. Run the `Get-Team` and `Set-Team` PowerShell cmdlets.

Correct Answer: BE

Section: (none)

QUESTION 15

You work as a Systems Administrator for your company. The company has a subscription to Microsoft 365. The company has 300 users and all users have a Microsoft 365 E3 license.

All users in the company use Microsoft Teams for collaboration.

The company has hired a new technician to help with the management of Microsoft Teams.

You need to assign a security role to the new technician to ensure that he can perform the following tasks for all users:

Access, monitor, and troubleshoot call quality and reliability using data displayed in the Call Quality Dashboard (CQD). Use the advanced troubleshooting toolset to troubleshoot call quality issues.

Which of the following roles should you assign to the technician? The solution must minimize the assigned permissions.

- A. Teams Communications Support Specialist
- B. Teams Communications Administrator
- C. Teams Communications Support Engineer
- D. Teams Service Administrator

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

QUESTION 16

You work as a Systems Administrator for your company. The company has a main office in New York and 20 branch offices in North America. Some of the branch offices are in locations with low bandwidth Internet connectivity.

The company has a Microsoft 365 subscription. All users in the company have a Microsoft 365 E3 license.

All users in the main office use Microsoft Teams for collaboration.

You want to roll out Microsoft Teams to all branch office users. However, you are concerned about the branch offices Internet connectivity.

You plan to test Microsoft Teams call quality with test users in the branch offices.

Which of the following tools should you use to view the packet loss during Microsoft Teams calls to the branch offices?

- A. Microsoft Teams Usage Report
- B. Microsoft Teams Call Quality Dashboard.
- C. Microsoft Teams Device Usage Report
- D. Microsoft Network Testing Companion

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 17

You work as a Systems Administrator for your company. The company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E3 license.

Most users currently use Microsoft Teams for collaboration. However, several users still use Microsoft Skype for Business Online for collaboration.

You plan to migrate all users to Microsoft Teams.

You need to configure the environment to ensure that Microsoft Teams is downloaded and installed in the background for all Microsoft Skype for Business users.

Which of the following actions should you perform?

- A. Configure the Teams upgrade settings in the Microsoft Teams admin center.
- B. Configure the External access settings in the Microsoft Teams admin center.
- C. Configure an App Setup policy in the Microsoft Teams admin center.
- D. Configure an App Permission policy in the Microsoft Teams admin center.

Correct Answer: A

Section: (none)

Explanation**Explanation/Reference:****QUESTION 18**

You work as a Systems Administrator for your company. The company has recently purchased a subscription to Microsoft 365. All users in your company have a Microsoft 365 E5 license.

You have deployed Microsoft Teams to all users in the company. Several teams and channels have been configured.

External contractors can access Microsoft Teams using guest accounts.

You need to configure the environment to ensure that no files containing malware can be opened from Microsoft Teams channels by either company users or external contractors.

Which of the following should you configure?

- A. Sensitivity labels.
- B. Advanced Threat Protection
- C. Protected Identity Management
- D. Conditional Access policy

Correct Answer: B

Section: (none)

Explanation**Explanation/Reference:****QUESTION 19**

You work as a Systems Administrator for your company. The company has a subscription to Microsoft 365. The company has 300 users and all users have a Microsoft 365 E3 license.

All users in the company use Microsoft Teams for collaboration.

The company has hired a new technician to help with the management of Microsoft Teams.

You need to assign a security role to the new technician to ensure that he can perform the following tasks for all users:

Manage meetings, including meeting policies and configurations.

Manage voice, including calling policies and phone number inventory and assignment.

Which of the following roles should you assign to the technician? The solution must minimize the assigned permissions.

- A. Teams Communications Support Specialist
- B. Teams Communications Administrator
- C. Teams Communications Support Engineer
- D. Teams Service Administrator

Correct Answer: B

Section: (none)

Explanation**Explanation/Reference:****QUESTION 20**

You work as a Systems Administrator for your company. The company has a subscription to Microsoft 365. All users in the company have a Microsoft 365 E3 license.

All users use Microsoft Skype for Business Online for collaboration.

You plan to migrate all users to Microsoft Teams.

You need to ensure that users can use both Microsoft Skype for Business Online and Microsoft Teams during the migration period.

You need to configure the Teams upgrade settings to ensure that users receive chats and calls in Skype for Business but use Microsoft Teams for group collaboration and meeting scheduling.

Which of the following coexistence modes should you configure?

- A. Islands
- B. Skype for Business only
- C. Skype for Business with Teams collaboration
- D. Skype for Business with Teams collaboration and meetings
- E. Teams only

Correct Answer: D

Section: (none)

QUESTION 39

You work as a Systems Administrator for your company. The company has a subscription to Microsoft 365. All users in your company have a Microsoft 365 E3 license.

You have been migrating users from Microsoft Skype for Business Online to Microsoft Teams over the last two months. Most users are now using Microsoft Teams.

The coexistence mode is currently set to Islands.

You plan to change the coexistence mode to Teams Only to force all users to use Microsoft Teams.

You need to ensure that if any users have online meetings scheduled to use Skype for Business, the meetings are converted to use Microsoft Teams.

Which of the following actions should you perform?

- A. Modify the default **Meeting** policy in the Microsoft Teams admin center.

- B. Run the `Start-CsExMeetingMigration` PowerShell cmdlet.
- C. Run the `Set-CsTeamsUpgradeConfiguration` PowerShell cmdlet.
- D. Run the `Set-CsTeamsMeetingConfiguration` PowerShell cmdlet.

Correct Answer: B
